This is the first major release for the latest GA JBoss AS, which is under intensive development, and has been under development since the last quarter of 2011. The main new features introduced with JbossAS 7.0 GA is: Recovery Agent Gateway Java EE support Major re-architecting of the configuration and deployment components I am more than impressed with the new Jboss EAP6. This is the first EAP version that we will see fully integrated with cloud capabilities, and if we compare it to the only other EAP platform (Jboss EAP6 is open source) - that is the standard JBoss AS 7. This is the first JBoss Release which can be deployed in Public Cloud as the services are fully integrated and a large selection of services in the cloud has become available. I think this is a major step in the right direction, and I am already looking forward for the next release of Jboss. InfoQ: Is Jboss EAP6 a compatible alternative to Jboss AS 7 and JBoss AS 8? JBoss EAP6 is just a name, but Jboss technology (and I guess also you and me) are right when we talk about standards. In this case the we are talking about JBoss AS 7. Our technologies are the result of continuous work during the last two years, and the differences are highlighted in our free EAP6 and paid JBoss AS 7 technologies. Jboss AS 7 is a pure play JBoss EAP application server. After the GA release I am sure we can only see more important 3da54e8ca3
