Adobe Photoshop and Adobe Photoshop Elements use very different file formats, and so Adobe introduced an intermediate format to allow developers to write converters to translate Photoshop files into and out of Elements, or to create Applications which are independent of Photoshop (and vice versa) and run inside Elements. If you're using the older Windows versions, you can also use Adobe's Graphics Converter or Photoshop Elements Graphics Converter to convert PSD and PSE files into the uncompressed graphics format used in Photoshop. You can also launch a Photoshop or Photoshop Elements file with Photoshop Elements Graphics Converter. Don't confuse Photoshop with Photoshop Elements, Photoshop Lightroom, Photoshop Creative Cloud, or Adobe Image Ready - they're all very different programs, and Photoshop Elements is the least sophisticated. What is Adobe Photoshop? Almost every photographer, graphic designer, web designer, or developer knows Photoshop. Adobe Photoshop is a powerful image editing application that was originally developed in the 1980s by Nik Software. The name of the product was changed from 'Photoshop' to 'Photoshop' in 1996. Adobe Photoshop has been the best-selling image editor since 1992. It uses a proprietary file format called Photoshop File Format or PSD which is a compressed image file format. The most recent version of Photoshop, Photoshop Creative Cloud, is a cloud-based service that contains a collection of tools and effects available to registered users. Adobe Systems offer a limited number of free trials. What is Adobe Photoshop Elements? Adobe Photoshop Elements is an alternative to traditional Photoshop. It is a graphics editor for photographers, image editors and hobbyists. It contains most of the features of the professional version but with fewer features and a simpler user interface. Adobe Photoshop Elements used a different file format called the Photoshop (or non-Compressed) Photoshop File Format (PSD) or the Photoshop Photoshop File Format. Adobe Photoshop C54 added the ability to convert PSD files to a format suitable for Photoshop Elements. Adobe Photoshop Elements is available as a stand-alone product, with a free version, and as a software subscription. Adobe Photoshop Elements comes in five versions and is available for Windows and macOS. Adobe Photoshop - Essential Features At its core, Photoshop is an image editing application for desktop or web. It can be used as a RAW or JPEG editor, to edit photos, and to create, edit and design images. Photoshop can be installed as a standalone application 388ed7b0c7

Spinning & Baking - Warm Ups Wednesday, 3 November 2017 This week in my spinning and baking week I have been playing around with just making a blanket. I have been a bit obsessed with making blankets, I have even been posting on my blog about them! The first blanket I made was on my own last year and that was my first attempt at making a blanket. It was really just to make myself feel better about when I don't quite have the time to make a dress, but I did it anyway and it turned out really well. It was warm and cozy and is still lying in my living room waiting to be 'forgotten about' until I need it. Since then, I have been making lots of blankets and this year I decided to join a challenge. The challenge I decided to join is TWINEY. As soon as I read it I knew I would be joining. I love the concept of the challenge and the fact that there are people from all over the world joining and encouraging others to join too! For my first project I decided to start with a baby blanket. This is a really quick project that I hope will be warm and cozy for my little nephew. Hopefully it will also be a little fun for my step-children too as I have told them that they can choose a complementary colour to theirs to go with the blanket. My first step was to decide on a width. I am aiming for a 36" square which will give me the perfect size blanket. I have included the finished size blanket I have made below for reference. My next step was to choose an idea for the design of my blanket. I couldn't really find anything I liked, so I decided to go for something simple. I love the autumnal colours of the colour scheme and thought it would work well with the natural tones of the leaves. I decided to use windfall of yarn as this is a natural dye and will give the blanket texture. Now, I needed to decide on the colours I wanted to use. I started by choosing an autumnal colour palette - orange, red and yellow. Then I started looking for a pattern to use. I love the colours on the front of the book as they are just beautiful. I then decided on the design I would like to use. I wanted to make sure it would compliment the colours I chose and make it look as lovely as possible, so I designed a leaf pattern. After choosing the pattern I then needed

Mahkamah Konstitusi (Indonesia) The Mahkamah Konstitusi (Indonesian for Council of State) is the national legislative body of the Republic of Indonesia. The Mahkamah Konstitusi was the Council of State of the Netherlands East Indies for the first 85 years of the Dutch East Indies. The main building of the Mahkamah Konstitusi is in Jakarta, Indonesia. The Mahkamah Konstitusi has 56 members. With the inclusion of the former Maluku Islands, the regions that were previously autonomous regions, the Mahkamah Konstitusi has 106 members. The members of the Mahkamah Konstitusi are nominated by the central government and must be at least 50 years of age, regardless of their political background. They are appointed for a term of six years, and must be at least 25 years old. History After the West Java revolution, Sukarno and his supporters established a puppet of the Dutch government in Jakarta by appointing an auxiliary parliament called the Senate-MPR (Majelis Permusyawaratan Rakyat; People's Consultative Assembly) on 5 April 1946. The government of the Directorate General of the Indies (DGRI) was abolished by the Dutch government as part of the final reorganization of the Dutch East Indies government on 1 April 1949. On 20 December 1949, the government of the Netherlands East Indies was replaced by the Republic of Indonesia. The Indonesian Parliament came into being in 1950, and the first three sessions were held at the Soegijapranata Palace in Bogor. With the transfer of the capital to Jakarta, the members of the first parliament of the People's Representative Council (DPR-RI) convened in the Old Legislative Palace (Gedung Perdagangan Awam) in Pasar Senen in August 1950. In 1955, the Indonesian Constituent Assembly was created, on 1 August 1955. The first constituent assembly of the Republic of Indonesia was held from 1 August until 24 September 1955. In accordance with the Provisional Constitution of the State of Indonesia as adopted on 3 August 1955, the first parliament of the State of Indonesia was held from 1 October 1955 to 25 June 1956. The state legislature was renamed Mahapolriyat in 1956, and changed to the People's Representative Council (DPR-RI) on 30 March 1958
